

encore®

CERTIFIED LDPE AND LLDPE POST-CONSUMER RECYCLED (PCR) RESIN

For flexible film applications

With Encore® post-consumer recycled (PCR) resins, you can achieve your organization's sustainability goals, reduce waste and contribute to the circular economy. We offer a broad line of low density and linear low density polyethylene post-consumer recycled resins. Applications include food packaging, poly mailers, California's SB270 certified reusable bags, trash can liners, carryout bags, stretch hood and wrap, and protective films for retail packaging.

- **Mechanically Recycled:** We reprocess used film into PCR resin appropriate for use in future film applications.
- **Quality & confidence:** High performance PCR rigorously tested and certified by The Association of Plastics Recyclers (APR) and SCS Global Services.
- **Best-in-class purity:** Clean inputs result in clean output. For blown film, this means longer production times and increased efficiency.
- **Suitable for food-contact application:** Approved for use at 100% concentration in food packaging under Conditions of Use (COU) B through H.

PCR Grade	Polyethylene Type	Color	Typical Range	
			MFI g/10min (ASTM D-1238)	Density g/cc (ASTM D-792)
W4041F (<i>Food Contact</i>)	LLDPE	White	0.28-0.66	0.920-0.940
BK9335	LDPE/LLDPE	Black	0.33-0.57	0.915-0.960
WT9335	LLDPE	White/Natural	0.28-0.66	0.920-0.940
CLDC92	LDPE/LLDPE	Clear/Natural	0.60-2.25	0.900-0.925

Don't see what you need? Ask your Revolution sales professional about our custom capabilities.

Are you ready to **redefine possible?**

Reduce waste. Achieve your sustainability goals. Contribute to a greener future. With our circular approach to plastics, we're redefining the possibilities for sustainable plastic solutions.

Revolution[®]

CREATE

We create & supply sustainable plastic solutions

RECYCLE

We process, clean & recycle the plastic into certified recycled resin

RECOVER

We collect landfill-bound plastic material, providing a new resource for creating plastic solutions

Sustainable plastic solutions

We have a longstanding track record of partnering with companies across a broad scope of industries. Our sustainable loop solutions and custom closed-loop programs can be tailored to fit the unique needs of a variety of markets and help any business meet ESG goals and contribute to a more sustainable future.

Whether you need to irrigate your crops or line the trash cans in your restaurant, we make the sustainable plastic products you need, using as much recycled content as possible.

From collections programs to tolling and brokerage, we recover, clean and process more than 300 million pounds of material each year. The recovered material is turned into a broad line of certified sustainable materials. Our PCR resins are ideal for use in a wide variety of flexible film products.

Join our circle

If you're serious about finding smarter, more effective approaches to sustainability, contact us to discuss how we can help you meet your goals and operate more responsibly. Together, we can redefine possible.
